

NEW LEBANON'S GOT

# FOOD

Food desert? What food desert? New Lebanon has come a long way in the last year or so. We now offer a range of food opportunities that would fit most family budgets.

And it just keeps getting better! Just in the last year we've added a Community Refrigerator with food free for all and a new market, Filli's, that will be fully stocked by this fall. Our Farmers Markets offer locally grown products.

The six establishments featured in this brochure are the ones who responded to a request for info that was sent to everyone on the list below, who all offer delicious meals or the ingredients to make them:
