YANMAR's ViO50-6A, our 5-ton class mini excavator, is powered by a 39 HP Tier 4 Final YANMAR engine. It comes packed with features to provide high work efficiency and operator comfort while working on tough construction job sites. With true zero tail swing, it allows you to be more productive to trench and dig with low total cost of ownership. Plus, YANMAR's unique SmartAssist Remote gives you peace of mind with theft prevention and maintenance management tools as well as other remote monitoring services.

## INNOVATIVE FEATURES

### True Zero Tail Swing

Our true zero tail swing technology means no part of the housing extends beyond the tracks. Since the entire machine operates within its tracks, you can work efficiently almost anywhere, with less damage to the machine and the worksite.

### YANMAR's Patented Hydraulic Quick Coupler

The standard hydraulic quick coupler makes changing buckets fast and easy. With the exception of fitting and removing the safety lock pin, the entire operation is performed electronically while you're seated in the comfort of the cab. Less hassle. Less downtime. More productivity.

### A Cab With Everything At Your Fingertips

The ViO50-6A comes standard with ECO Mode, Auto-Decel Mode, lever-controlled backfill blade and 2-speed operation incorporated right into the operator's station. Plus, you get an innovative LCD monitor, showing key operating information and maintenance notification intervals.
